 80. Granite is from Bangalore, India, and was used because of its deep color and consistency. 5 ft. panel weighs approximately 900 pounds
 81. The Wall represents a 'cut' or 'gash', in the earth, as 21-year old Maya Lin envisioned the field being peeled back to reveal the open wound that was Vietnam and our loss. Black represents earth, granite a permanent separation of the living and the dead, polished granite reflects the images of the living in the lives of those who died for our freedom. The names would tell the story of a 'Journey' and that Vets could come back to their own place in the 'Journey'. The 'first' and the 'last' meet at the apex of the Memorial - Closure. Didn't want The Wall to look like a telephone book. Approximately \$9 million raised for the Memorial. All funds were from private contributions.
 82. The grassy area in front of The Wall and on the top of the memorial are supposed to represent 'healing'... as grass would grow right up to The Wall. (Sidewalk added, but at opening ceremonies there was grass between Wall and sidewalk). Maya Lin noted that the pain of loss heals over time (the grass), but never truly goes away (the Wall itself). The panels read like pages in a book - left column justified on the East panels, right column justified on the western panels - artistically like an open book. The names, as they write the history of the war - like a diary - day by day, become the monument itself. The names are alphabetical by last name on days with more than 1 casualty.
 83. Maya was a Yale undergraduate majoring in architecture. She received a B+ on the project when submitted at school. 1,421 entries in total were submitted in the 1980-81 contest and the winner selected by a panel of 8 internationally recognized landscape architects (3), sculptors (3), and architects (2). trees planted around memorial in honor of the 8 military women who died. Goodacre said that in her mind the soldier does NOT die.

87. 'In Memory Day', scheduled for Father's Day, Sunday, 20-June-2015 - honors those men and women who died as a result of their service in Southeast Asia whose names were not eligible to be added to The Wall. Christmas Tree Ceremony; Sunday; 13-Dec-2015 at 1100 hours - hosted by the Volunteers.

90. The Wall is 246 feet 9 inches long in both East and West directions. 10 feet, 6 inches tall at apex. There are 148 Panels... 140 numbered, 4 blank at 2 at each end.
91. Name additions, spelling corrections and MIA to 'Declared Dead' status done by James Lee of 'Engrave Write' of Colorado - generally done in May of each year.
92. A diamond is 'declared/presumed dead'- either KIA or death from other causes (approximately 10,800). Nearly 900 men 'declared dead' on The Wall are 'Body Not Recovered'. Some groups consider these men still 'missing'. DOD says 1,598 military 'unaccounted for' in April 2015. The Wall shows 728 'status unknown'.
93. A good example of a name addition for visitors is Billy Smith on Panel 1E Line 42. He was seriously wounded 8-Nov-63 and died 7-Oct-95. He was added prior to Memorial Day 1999 - and was placed as close to those men he served with in 1963 as possible.
94. 379 names added since 1982 - 110 added in 1986 – most were airmen flying combat missions from Thailand, but President Reagan ruled them eligible. 68 added in 1983 - most were Marines killed in a plane crash in Hong Kong on R & R. The other 198 were mostly men who were left off for various reasons or died after The Wall was dedicated from combat wounds. Alan Brudno (5E, Line 2) - was a suicide here in the States. Brudno had been a POW from 18-Oct-65 thru 28-Mar-73 (7.5 years)
95. Memorabilia left at The Wall is stored in a climate-controlled warehouse in Landover, MD, managed by Park Service. Flowers and perishable food are not kept. Over 400,000 items are cataloged.
